"Institutional Distinctiveness 2019-20"

Veena Memorial College of Education has a wide or extensive vision of education system. Our institute focused on these aspects:

1. Innovativeness in Education
2. Technically Skill Education
3. Environmental awareness

The institute has vast distinctiveness and approach towards comprehensive vision to get the unique target or achievement in educational system there are four basic pillars of education system which provide to steadfastness in educational process

1. **Excellence in Academics** :- Our institute has good academics result as students get rank at B.Ed. qualitative academic excellence knowledge with moral values in provided to students by the faculties. Teaching facilities and multitypes teaching aids are available at our institute. Different type lab for new experiment increase the importance of institution. Student are motivated for their good future or carrier local, global and referential values are to be taken in comprehensive thinking for their bright carrier. Students are also curious to achieve their mission.
2. **Exploration of knowledge through research** :- The institution is determined to get the achievement of research and exploration. Our faculties are motivated to take part more and more in research. Many faculty members are passing through this process as Ph.D. and National Eligible test for teaching at our institution. For this library is also support and reading facilities are also available. Multitype books and reference books are also available faculties always support to trainees and motivate them to part play in future as a research scholar in future and we will support them as allumini.
3. **Excitement of innovation and entrepreneurship** :- Veena Memorial College of Education has good part play to motivate the students for their bright career in future. Students are motivated by the faculties as in teaching learning process of education. It is just like a platform from that place he can taken any side to choose or select his career. Use of ICT and computer is increasing in modern education new technology and experiments are also increasing in future. Our institution forth coming on the foot steps. In competition process students get government job at the periods of training and take entry at education after the passing out of course become teacher in primary or secondary education.
